A field project for Master in Commerce (M. Com) students under NEP 2020 will provide a transformative educational experience that goes beyond textbooks and traditional classroom learning typically in collaboration with businesses or organizations.

The objective is to enhance students' understanding of commerce-related concepts and develop practical skills that will be valuable in their future careers. Field projects can vary widely depending on the specific focus area within commerce, such as management, marketing, finance, accounting, costing, banking, cooperation and rural development, business practices and environment or other commerce related disciplines.

Field projects for Master in Commerce (M.Com) students not only intensify their understanding of theoretical concepts but also equip them with practical skills and experiences that are valuable in their future careers.

Field projects empower students to bridge the gap between theory and practice that enhance their academic knowledge and prepare them for the dynamic challenges of the business world, fostering the development of critical skills, a professional mindset, and a comprehensive understanding of the field of commerce. Ultimately, field projects empower commerce students to enter the workforce with a holistic skill set, positioning them as skilful professionals capable of navigating the complexities of the business sphere.

KEY FEATURES OF A FIELD PROJECT

Why field project is valuable for Master in Commerce (M. Com) students?

Application of Theoretical Knowledge

- Allows M. Com students to apply the theoretical concepts learned in the classroom to real business situations.
- Bridges the gap between academic learning and practical implementation.

Hands-on Experience:

- Provides hands-on experience in various aspects of commerce such as management, marketing, accounting, costing, banking and finance, cooperation and rural development, business practices and environment or other commerce related disciplines.
- Enables students to develop practical skills that are essential in the professional world.

Problem-Solving Skills:

- Challenges students to solve real-world business problems, enhancing their critical thinking and problem-solving abilities.
- Encourages innovative thinking and creativity in finding solutions.

Integration of Specialization Knowledge:

- Depending on their chosen specialization, students will integrate and apply specialized knowledge to the specific context of their Field Project.

Interaction with Industry Professionals:

- Offers opportunities for students to interact with professionals in the industry, gaining insights, guidance, and networking opportunities.
- Facilitates mentorship and the exchange of ideas between students and experienced professionals.

Understanding Business Practices:

- Allows students to gain firsthand experience in the day-to-day operations of businesses, helping them understand the practical aspects of business management.
- Provides exposure to industry best practices and real business challenges.

Professional Development:

- Enhances professional skills such as communication, teamwork, time management, and project management.
- Builds confidence and prepares students for the demands of the corporate world.

Report and Presentation:

- A crucial aspect of the Field Project will be the preparation of a comprehensive report.

- Additionally, students will be required to present their project outcomes to faculty or industry experts.

Industry Relevance:

- Ensures that students are aware of the current trends and challenges in the industry.
- Helps students stay updated with industry practices, making them more adaptable and relevant in their future careers.

Research and Analysis Skills:

- Develops research and analytical skills as students gather and analyze data for their projects.
- Fosters a deeper understanding of market trends, consumer behavior, and industry dynamics.

Preparation for Entrepreneurship:

- If students aspire to become entrepreneurs, a field project can provide valuable insights into the challenges and opportunities of starting and managing a business.

Networking Opportunities:

- Engaging in a Field Project may provide students with opportunities to connect with professionals, industry experts, and potential employers, expanding their professional network

Resume Enhancement:

- Adds value to a student's resume by showcasing practical experience and the ability to apply theoretical knowledge in real-world scenarios.
- Increases the employability of students as employers often value practical experience.

GENERAL GUIDELINES FOR THE PREPARATION OF FIELD PROJECT

1. Selecting a Relevant Topic:

Choose a topic aligned with your specialization, allowing for the practical application of classroom concepts. Consider current trends, issues, or challenges within the business or financial sector.

2. Define Clear Objectives:

Clearly outline the objectives of your field project.

3. Identifying the Scope:

Define the project's scope to ensure it is manageable within the given timeframe and resources. Set realistic expectations regarding the depth and breadth of your project.

4. Industry or Sector Focus:

Tailor your field project to a specific industry or sector such as management, marketing, finance, accounting, costing, entrepreneurship, banking and finance, cooperation and rural development, business practices and environment or other commerce related disciplines.

5. Practical Application of Concepts:

Design your project to require the application of theoretical concepts learned in the classroom.

6. Project Presentation:

Include a presentation component where you communicate your findings, insights, and recommendations to your peers, faculty, or industry professionals. Utilize visual aids, such as charts and graphs, to enhance clarity.

7. Evaluation Criteria:

Understand the criteria for evaluating the field project, including factors such as research quality, analytical skills, presentation effectiveness, and the practical relevance of your findings.

8. Documentation:

Emphasize the importance of documenting the entire process, from project initiation to conclusion. This documentation includes research notes, analysis, and final reports.

FIELD PROJECT ASSESSMENT PLAN

Savitribai Phule Pune University is committed to prepare students for the jobs of the future, which will require a combination of technical skills, problem-solving abilities, and creativity and to achieve this industrial internship plays crucial role. Field Project is a 04-credit course and it is evaluated based on successful completion of the student's submission of the project with required documents. The project report prepared by the student will be known as the output of field Project. Field Project carries 04 credits, and carries 100 marks, divided into two parameters

Internal Evaluation (30 Marks)

Preamble: -

The National Education Policy 2020 also emphasize Practical Assignments and Skill Development to the students across institutes of higher learning in various streams. In view of this, Savitribai Phule Pune University has come up with a concept to provide 'On Job Training' to all students studying in Semester II of Master of Commerce.

The On Job Training (OJT) program will provide valuable work experience to the students, help them explore a career path and develop and refine skills that will eventually give themselves an edge in the job market.

The University has established pool of business establishments who are willing to provide practical exposure to the students for One Hundred Twenty Hours in their respective organizations. The Certificate awarded by these establishments, will add a value to the academic credentials of participating students.

1 . Nature of On Job Training Programme

Student who has opted on Job Training Programme has to undergo for One hundred Twenty hours of practical training in business establishments. The list of these establishments will be provided by the college or university. In case, a student is unable to join the enlisted establishment, he/ she can choose an establishment in consultation with the concerned teacher based on their specialization or as per the availability of the company/firm

2. Salient features of On Job Training Programme

The fundamental framework of On Job Training is as below:

- a) The On Job Training (OJT) is of Four Credits.
- b) On Job Training (OJT) will be of One Hundred Twenty clock hours.
- c) The On Job Training (OJT) has to be completed during the Semester II.
- d) In case of backlog, he/she can complete the On Job Training (OJT) prior to appearing for the Semester III examination.
- e) Student who has opted On Job Training Programme, it is mandatory to complete the On Job Training as per prescribed standards.
- f) A student is entitled to a 'Completion Certificate' after successful completion of the On Job Training (OJT).

- g) A student is solely responsible for his behavior in the business establishment during the On Job Training (OJT).

3 Subjects available for On Job Training Programme

4. Framework of the for On Job Training Programme:

- a. The area in which a student has to undergo On Job Training (Contents of the On Job Training) will be finalized by the concerned subject teacher in consultation with the On Job Training providing organisation.
- b. It is essential to ensure that all key contents of the syllabus of Semester II is incorporated in the framework of the On Job Training.
- c. This will help a student to have hands - on experience of the important aspects of the Discipline Specific Special Subject chosen by him / her.
- d. The contents of the On Job Training should be adequate and students should be able to understand various concepts and put it into practice within a time frame of One Hundred Twenty hours.
- e. On Job Training is of O n e H u n d r e d T w e n t y h o u r s .

Guidelines for Teachers

The National Assessment and Accreditation Council also emphasize On Job Training as a part of effective curriculum delivery. The number of students undergoing On Job Training will certainly aid colleges to secure better grades during evaluation.

For effective implementation of the On Job Training, it is advised that the concerned department institutes an 'On Job Training Execution Cell'. The cell will plan and implement the On Job Training according to the guidelines issued by the university. The cell is also expected to monitor and review the progress and outcomes of the programme with regular intervals and make necessary changes.

On Job Training Functions

Teachers are expected to carry out following Pre-on Job Training functions:

1. On Job Training Execution Cell:

The concerned department needs to institute 'On Job Training Execution Cell'. The composition of the cell will be as below:

- | | |
|-----------------------------|--------------------|
| 1. Principal of the College | : Chairman |
| 2. Vice-Principal / HoD | : Member Secretary |
| 3. Head | : Member |
| 4. Subject Teachers | : Member |
| 5. Industry Expert /s | : Member |
| 6. Student Representative | : Member |

Following are the functions of the cell:

- Preparation of exhaustive outline of the On Job Training (OJT).
- Communication of the outline of the concerned students well in advance.
- Contacting concerned companies / establishments and organization of meetings to finalize the programme.
- Preparation of subject wise 'Hands on Training Content List' (On Job Training Contents).
- Getting the contents approved by the On Job Training providing companies / establishments.

- f) Preparation of One Hundred Twenty Duration on Job Training (OJT) for each Discipline Specific Special Subject ensuring that the hands-on training contents fit in properly.
- g) Establishment of query / grievances / difficulties redressal mechanism to solve students' issues related to the On Job Training (OJT).
- h) Establishment of 'Feedback Mechanism' for both students and On Job Training provider companies.
- i) Preparation of 'Progress Card' to record the progress of students' during the On Job Training (OJT).

2. Clusters

Few colleges located in geographical vicinity may think of coming together and formation of 'Cluster' to implement On Job Training jointly. This will ease the process of contacting the On Job Training providing companies and execute all related activities. The colleges will save on funds, manpower and time if the programme is implemented through clusters.

3.. Evaluation and credits

Savitribai Phule Pune University is committed to prepare students for the jobs of the future, which will require a combination of technical skills, problem-solving abilities, and creativity and to achieve this industrial on the Job training plays crucial role. Student has to submit project based on job training and it is evaluated based on successful completion of the student's submission of the comprehensive project report with required documents. The project report prepared by the student will be known as the output of on-the-job training experience. The Comprehensive Project report based on (OJT) carries 04 credits, and carries 100 marks, divided into two parameters

Internal Evaluation (30 Marks)

External Evaluation (Marks 70)

As the On-the-Job training Project report is based on the self-study done by the candidate and evaluated for 100 marks altogether, 04 credits will be awarded to a successful candidate in this subject. The Project report based on OJT (the Job Training) shall be evaluated by two examiners one internal and one external (Subject Expert from Outside College). A Viva voce must be conducted by the panel consisting of Internal Examiner and External Examiner.

Guidelines for Teachers

During – On Job Training Functions

1. Teachers need to contact the On Job Training providing organisations at regular intervals during the On Job Training (OJT) to review following matters: -
 - a. Regularity / punctuality of student
 - b. Behaviour / soft skills
 - c. Inclination to learn new things
 - d. Ability to put theory into practice
 - e. Ability to take initiative for problem solving
 - f. Commitment to the assigned task
 - g. Overall progress and performance (Whether satisfactory or not)

Post – On Job Training Functions

- ☐ After the students have successfully completed the On Job Training Programme, teachers are required to convene a batch wise meeting of students to know their experience and overall opinion about the utility and effectiveness of the programme.
- ☐ Teachers should also try to compare the feedback received from the students regarding the industry requirements with the prevailing curriculum and try to bridge the gap by organizing guest lectures, assigning projects to the student, organisation of industrial visits etc.
- ☐ These endeavors will help students to undergo the On Job Training (OJT) in a more confident manner.

Preamble:

The labour movement played vital role in the enacting of laws protecting labour rights in the 19th and 20th centuries. Labour rights required protection to ensure social and economic development since the industrial revolution. After the Independence Indian government passed numerous legislations for the regulation of labour relations and their welfare. Labour and Industrial law are instrumental to highlight aspects of the relationship between trade unions, employers, and employees. The industrial legislations define the rights and obligations of workers, union members and employers in the workplace. An understanding of industrial Laws is essential for Commerce students because the scope and ambit of these laws is very wide and is touching the lives of millions of working population in the country.

Objectives of the Program:

1. To introduce students to the fundamental concepts, scope, and importance of Industrial Law and its relevance to industrial relations.
2. To familiarize students with various labour and industrial legislations, including constitutional provisions related to industrial relations.
3. To study the mechanisms available under the Industrial Disputes Act, 1947, for dispute resolution and study legal provisions relating to strikes, lockouts, and retrenchment.
4. To the basic provisions of the Maharashtra Recognition of Trade Unions and Prevention of Unfair Labour Practices Act, 1971, and the Industrial Employment (Standing Orders) Act, 1946.
5. To understand the legal framework governing working conditions, safety, health and welfare of the workers.
6. To study the Contract Labour (Regulation and Abolition) Act, 1970.
7. To develop an understanding of industrial discipline, domestic inquiries, and procedures for handling industrial misconduct.

Depth of the program:

After the completion of the course, students will be able

1. To develop expertise in industrial and labour laws, enabling students to interpret and

apply legal provisions in real-world industrial disputes.

2. To equip students with knowledge of dispute resolution mechanisms, including conciliation, arbitration, and adjudication.
3. To promote awareness of employee rights, unfair labour practices, and compliance with standing orders.
4. To develop skills in handling industrial relations, trade unions, strikes, and disciplinary actions within an organizational framework.
5. To make students aware of legal provisions on working conditions, contract labour, and industrial relations
6. To make students understand professional responsibility of employers in industrial relations and labour law compliance.
7. To develop among students the skills required to analyze case laws, interpret legislation, and judicial pronouncements related to industrial disputes
8. To encourage students to critically examine existing labour and industrial laws and suggest modalities for better industrial relations.
